

3dcart, the best eCommerce platform for SEO

With more than 17,500 active online stores and 20 years of industry experience, 3dcart continues to be everything you need to sell online.

Founded in 1997, 3dcart is a complete and robust eCommerce platform designed to help online store owners thrive in a competitive market. With hundreds of features built directly into its software, business owners can effectively open, operate and maintain a successful online store with relative ease and efficiency.

3dcart currently powers more than 17,500 global merchants, and its support team is always available at no additional cost, 24/7/365.

Ranked # 1860

3dcart is an Inc. 5000 company, a Visa PCI Certified provider and a pioneer in mobile commerce and social media marketing. Fully scalable and completely customizable, 3dcart continues to be the eCommerce solution of choice for thousands of merchants worldwide and the best overall eCommerce platform for SEO.

What makes us different?

There are hundreds of eCommerce solutions to choose from, so why

Fully customizable

From back-end features to front-end functionality, everything about 3dcart's eCommerce software is fully customizable, giving users complete control over design and functionality.

Affordable

Not only is 3dcart the most feature-rich SaaS solution on the market, monthly eCommerce plans start at just \$19, making it one of the most affordable options available to online store owners. There are no transaction fees, no contracts to sign, and no hidden costs of any kind.

Free 24/7/365 phone support

Unlike other eCommerce software providers that offer little-to-no professional support, 3dcart customers have around-the-clock access to a team of industry experts. Help is always available anytime it's needed, no matter what.

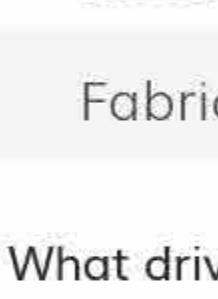

An endless library of resources

3dcart's Knowledgebase Center is the place to go if you need help configuring any aspect of your 3dcart store. Its eCommerce University offers a wealth of instructional resources aimed at teaching clients how to use 3dcart's expansive features to successfully build a profitable online empire.

A growing list of features

3dcart includes more than 275 out-of-the-box features, and there are hundreds of additional extensions housed inside its App Store.

Hundreds of customizable templates

With more than 200 optimized pre-built templates to choose from, finding the right design is never a difficult task. Add to that the fact that every 3dcart template is fully customizable, and building a dream store is quick, painless, and easy.

We Are Proud Of All The Successful Entrepreneurs Using Our Platform

eCommerce for any business

3dcart powers some of the biggest names in their respective industries, including Kitchen Restock and Peak Performance Ski Shop. In addition to dozens of big-name players, 3dcart prides itself on helping small-to-medium-sized business owners achieve their goals. 3dcart currently powers more than 17,500 active online stores operating in the following industries:

Apparel	Fashion	Jewelry
Automotive	Food & Beverage	Pet Supplies
Baby & Kids	Furniture	Printing
Candy & Coffee	Games & Hobbies	Toys & Collectibles
Cosmetics	Gifts, Books, & Crafts	School Supplies
Electronics	Health	Sports
Fabrics & Quilting	Home & Garden	...and many more

What drives us to excel?

Our clients mean everything to us, and the entire 3dcart team remains committed to doing whatever it takes to help our merchants prosper in eCommerce. Their continued success is what drives us forward, and we will continue to innovate and expand our solution in an effort to help every 3dcart client realize their entrepreneurial dreams.

Where do we see ourselves in five years?

The eCommerce landscape is constantly changing, and five years from now, we see ourselves positioned as the premier eCommerce software solution for entrepreneurs who seek a real advantage over their competition. Because we are vigilant about updating our platform to implement the latest cutting-edge technology and SEO techniques, we will continue to pull ahead of the game and equip our merchants with the most advanced tools in eCommerce. By staying true to our customers, keeping our features fresh, and driving innovation, we're committed to evolve and become the preferred solution for business owners passionate about profits and overall success.

Founder's Bios

It all started with a high school student's knack for software development.

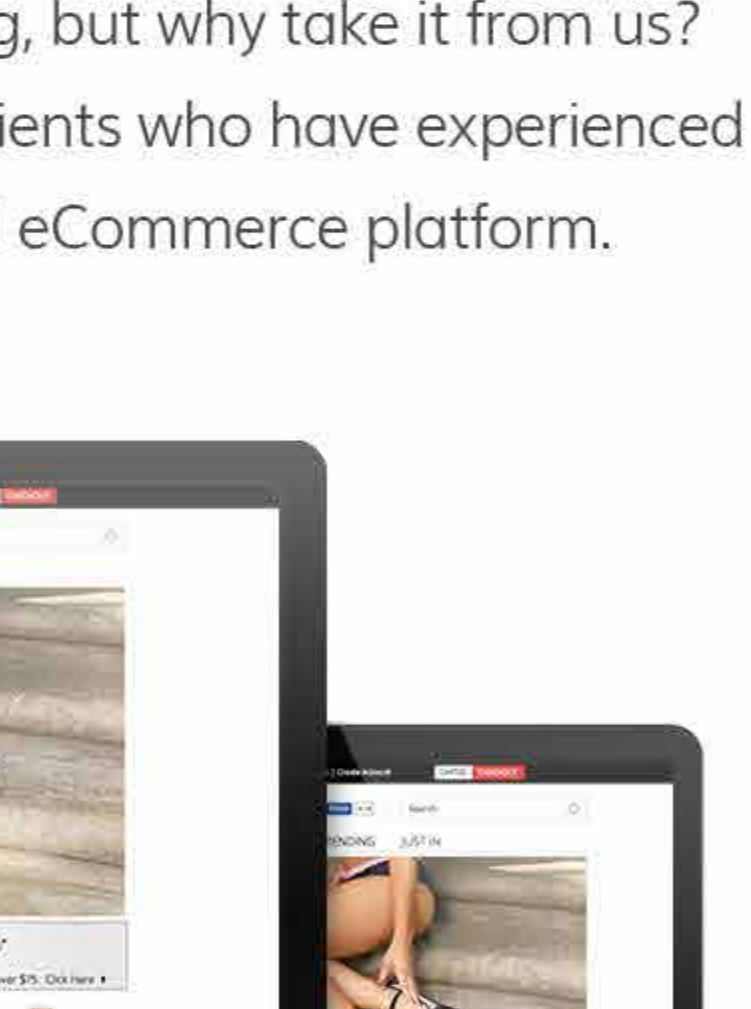

After years of hard work and unrelenting commitment, 3dcart's co-founders Gonzalo Gil and Jimmy Rodriguez revolutionized the way people buy and sell goods and services online.

GONZALO GIL

Founder & CEO

A graduate of Florida Atlantic University, Gonzalo incorporated "Infomart 2000" in 1996. In 2001 he singlehandedly conceived and developed 3dcart version 1.0 as an affordable and highly customized shopping cart solution. Today, he is largely responsible for the vision and day-to-day operations of 3dcart. Although, as a programmer at heart, he has never stopped getting his hands dirty with the software code or adding something new to the arcade room.

JIMMY RODRIGUEZ

Chief Operating Officer

Joining the company in 2004, Jimmy manages business development and technical planning, and oversees the daily operations and overall strategic direction of the company. Jimmy attended UNY in Venezuela where he obtained a B.S. in Industrial Engineering. As an authority on eCommerce best practices, Jimmy coaches businesses of all sizes in the areas of SEO, eCommerce, logistics, online marketing, and social eCommerce.

Our Story

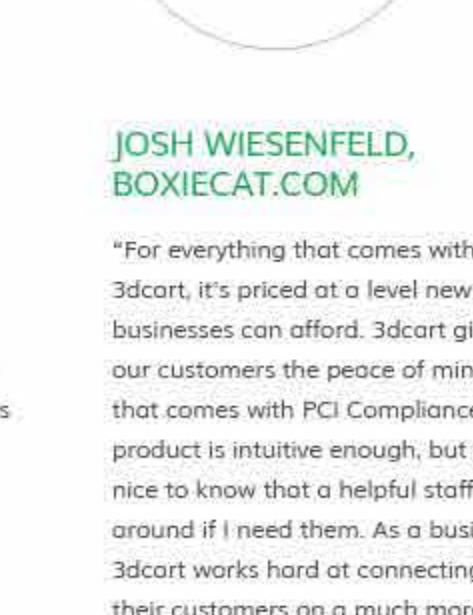

After years of building custom eCommerce solutions for medium- to large-sized businesses, 3dcart's founder Gonzalo Gil sought to compile many of the most-requested features into a simple and affordable shopping cart solution. Soon, he would effectively balance the once price-prohibitive and highly customized eCommerce solutions of the late nineties and make them available to a wider range of businesses.

Today, 3dcart has evolved into a robust, fully-hosted eCommerce platform with thousands of merchants all over the world and an enduring drive for innovation and value.

"We strongly believe in our customers' security and privacy. That's why we didn't think twice about adopting the toughest standards for online security available." — Gonzalo Gil, CEO

Success Stories

It's time to let our customers do the talking

We can tout the benefits of 3dcart all day long, but why take it from us? Below you will find a select number of 3dcart clients who have experienced tremendous success using our fully-hosted eCommerce platform.

ALI AL DARWISH,
ALGHAF.COM

"After evaluating most of the similar platforms, we landed with 3dcart with our true belief that it will fulfill all of our requirements and future growth plans. What also contributed to our selection was the friendly and fast customer service and the optimistic responses we received addressing our issues."

HUE AND MARLA PARNELL,
FAITHVESSELS.COM

"We are extremely happy with our new Faith Vessels 3dcart website. We are receiving orders online and everything is working well, as it should. We both highly recommend 3dcart to anyone who wants a clean, well-designed ecommerce website that works!"

SUSAN REHM,
CLEARLYSUSAN.COM

"My organic traffic is improving and my bounce rate has gone down. Plus, the right kind of traffic is now staying for longer. Responsive design is the only way to go if you're looking to make it in eCommerce. Thanks to responsive design, my website looks just as good on mobile and especially tablet as it does on desktop. I am very pleased."

ANDREA LEAH,
RAVENCRYSTALS.COM

"I LOVE it all. The home page with its beautiful sliding photo banners really showcase the crystals and my products. I really feel the website represents and gives shoppers a sense of what Raven Crystals has to offer in such a beautiful way. I love how you can magnify an image for a closer look at the crystals."

ALY SULEMAN,
MORGANSPORTS.COM.AU

"3dcart is just a great, high-quality product. I'm not only able to manage my store with ease, but customers find the website very easy to navigate and use as well. Within the first 48 hours of going live, we've seen sales and user interaction increase by about 25%. What we had invested to re-designing our store was paid back to us within the first day of trading!"

COLTON WILES,
SOFTWARECIV.COM

"I decided to open a website because we wanted the flexibility that just wasn't available with marketplaces. Our favorite features of 3dcart are the ability to completely edit all pages' code and the ease of doing this. We also love the built-in Product Review and Q&A features so we do not have to pay a 3rd party to do this."

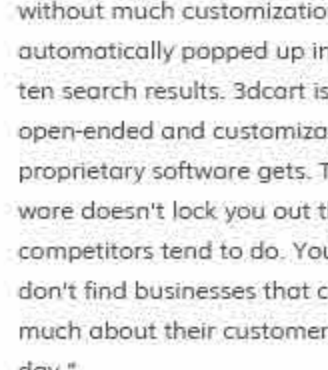

SARAH CANTLON,
STOCKADE.CA

"3dcart has all the features we can't do without, at no additional monthly charges. I am so glad we chose to use 3dcart for our e-commerce site. I no longer spend my days worrying about the day-to-day operation and maintenance of our website. With 3dcart, our site looks professional and is easy to use, both for our customers and our staff. We wish it had been around in the 70s!"

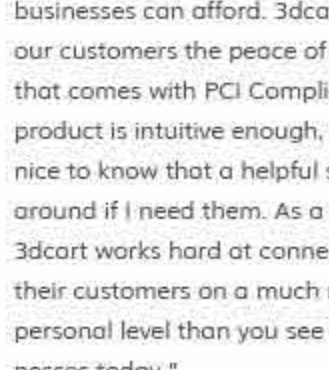

ANDREW RADEMACHER,
STEMFOOTWEAR.COM

"3dcart support has been there to respond to my urgent questions 24/7 with their own live chat and 1-800 number, and for questions that require more explanation or screenshots, I email support and get an answer back within an hour. We can focus our time on converting leads and, as a result, building a successful business."

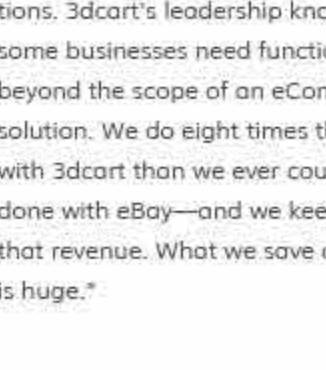

JESSE COVER,
LUKIEGAMES.COM

"The way 3dcart names and structures our sites is very SEO-friendly without much customization. We automatically popped up in the top ten search results. 3dcart is about as open-ended and customizable as proprietary software gets. The software doesn't lock you out the way competitors tend to. You simply don't find businesses that care this much about their customers every day."

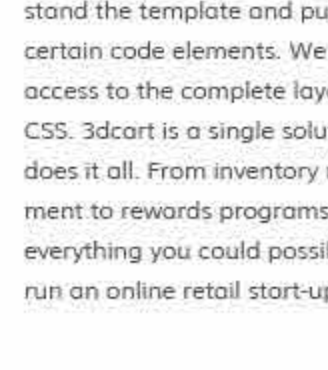

JOSH WIESENFELD,
BOXIECAT.COM

"For everything that comes with 3dcart, it's priced at a level new small businesses can afford. 3dcart gives our customers the peace of mind that comes with PCI Compliance. The product is intuitive enough, but it's nice to know that a helpful staff is around if I need them. As a business, 3dcart works hard at connecting with their customers on a much more personal level than you see in businesses today."

JOHN NELSON,
AMERICANRVCOMPANY.COM

"One of the factors that really sets 3dcart apart is its third-party integrations. 3dcart's leadership knows that some businesses need functionality beyond the scope of an eCommerce solution. We do eight times the sales with 3dcart than we ever could have done with eBay—and we keep all of that revenue. What we save on fees is huge."

FLORI SEEGER,
QUADROPTER.COM

"I built the entire site design from scratch. It was very easy to understand the template and pull in certain code elements. We had access to the complete layout and CSS. 3dcart is a simple solution that does it all. From inventory management to rewards programs, it has everything you could possibly need to run an online retail startup."
